How to Reset tablet to factory settings

In order to reset the tablet to its original factory settings using the software, perform the following steps:

1. Turn on tablet

2. Open up the 'Settings' application

3. Scroll down on the menu on the left side of the device and select on 'Backup & Reset'

4. Select 'Factory data reset'

5. Select 'Reset tablet'

6. Select 'Erase everything'

In order to reset the tablet to its original factory settings using buttons only, perform the following steps:

1. The tablet should be off. The device can be turned off in one of three ways: 1) using the reset button found below the Vol +/- button, 2) allowing the battery to drain, or 3) holding down the power button until prompted to turn the device off

2. Press the Power and Volume + buttons simultaneously for 20 seconds

3. When an Android logo with a blue circling atom appears, you should release the buttons

4. The system recovery process will start and delete all information stored on the tablet. The tablet will be restored to its original factory settings.
